TITLE

Gated delivery area and night-time deliveries

ARTICLE

Where possible, Cliffe Hill Quarry (Midland Quarry Products™ flagship unit, near Coalville), schedules bitumen for night-time delivery when there are less vehicle movements and dedicated supervision is easier to arrange. All operators associated with the coating plant are trained for safe receipt of bitumen.

To facilitate deliveries of bitumen, fuel and filler, a gated area has been designated.

The delivery driver has the comfort of a safe area in which to work, in the knowledge that neither personnel nor other vehicles can interfere with the discharge process.
