SUB ACTIVITY: N/A COMPANY LOCATION: Glensanda Quarry, Scotland

BEST PRACTICE No: BP245 COMPANY TEL: 01631 730441

TITLE On Vide	0
Bucket tooth handler	
ARTICLE	
Glensanda Quarry (Foster Yeoman™s Scottish superquarry) operates very large equipment in a particularly abrasi granite. Bucket tips on the company™s latest Caterpillar 992 loaders and Demag H95 excavators weigh in at 50 kg each Œ 20 teeth in all, replaced on an average cycle of 3 weeks - equating to the manual lifting of 17 tonnes in a ye By adapting a road kerbstone layer, the weight can be shared between two people, thus reducing the risk of strains sprains, or the need for hand contact.	g ear!
