TITLE

Virtual quarry and open access education resource

ARTICLE

This is a MIST funded project by the QPA, supported by Daybreak Communications.

The project has successfully achieved its four objectives:
- To create a dynamic web-based educational resource for both teachers and children
- To take full advantage of the quarrying industry's substantial potential to contribute to the National Curriculum across several subject areas
- To use the new medium as an opportunity to deliver wider access to safety and careers information
- To establish the quarrying industry as a willing contributor to the overall education community.

For a full report go to www.mi-st.org.uk or follow the link from the links page to the website. Project MA/4/4/013.
