

New E-Learning Package Available to Support Contact With Moving Machinery and Isolation

Contact with moving machinery and isolation, has been identified by the MPA's Health & Safety Committee, as one of 'The Fatal 6' high consequence hazards, that are the main cause of fatalities and serious injuries/incidents, within our industry, over the last decade. To learn more visit <https://www.safequarry.com/home/fatal-6.aspx>

The MPA has already released guidance and supporting materials that take the form of a guidance document, pocket guide and stickers. These can be accessed at the end of this Direct.

MPQC E-LEARNING PACKAGE

To support and complement the guidance, MPQC have developed an e-learning package which covers the topics in the guidance, but also highlights the emotional impact following incidents, further emphasising the part that our behaviour plays in preventing incidents, and includes an important message to the participants direct from industry leaders.

Members can access this e-learning package by registering at www.mpconnect.co.uk (you will need your national insurance number) or for those that already have an account on mp connect, log on to access.

MPA RESOURCES

Guide to Avoiding Contact with Moving Machinery and Isolation

171 page, A5 handbook, designed to assist supervisors and managers on site and support other industry technical guidance. Follows the Plan, Do, Check, Act (PDCA) cycle. The narrative and practical examples have been taken from materials that were received from MPA members, both large and small, after a request to share best practice on this subject.

Download [here](#).

Hard copies are available at cost at £5.50 each for MPA members. Contact [Rhian Geary](#).

Pocket Guide to Energy Isolation and LOTOTO

A6, designed for operatives and site personnel, it focuses on the Lock-Out, Tag Out and Try-Out (LOTOTO) 9 step plan. To date, over 40,000 copies have been distributed across the industry.
