political development

■ Recent political development

■ Announcement of the EU-Commission 21.02.2007

Target: Reducing accidents and occupational diseases in the EU about 25 %
Period 2007-2012

Tools:

- Using “Good practice” Method
- More Instruction/Training
- National focus on branches needing it the most
- Mainstreaming Health & Safety (e.g. education, public health, research)

**Thank you
for listening!**
