TITLE

Worker Involvement and Engagement – Health & Safety Stand Down

ARTICLE

FINALIST SAFER TOGETHER

CEMEX UK Materials Readymix Yorkshire operates 17 readymix and mortar plants, delivering its products via 58 Independent Haulage Contractors (IHCs), making over 70,000 deliveries to customer sites each year.

CEMEX's global strategy is to be a 'Zero 4 Life' operation requiring an interdependent health and safety culture on all its sites. The pandemic made it harder to monitor this culture, so it became even more important that each Readymix site team became leaders in health and safety by 'Looking after themselves and each other', moving across the Bradley Curve to achieve interdependency.

Please watch the video to see how they achieved this at the Yorkshire Readymix plant.
