TITLE

Transport - Supply Chain - Improved Driver Communication Tools

ARTICLE

Highly Commended

CEMEX is a global building solutions company and leading supplier of cement, ready-mixed concrete, and aggregates. CEMEX employs around 2,000 people in the UK, and operates from over 200 locations nationwide, including 22 quarries and 12 rail depots. CEMEX transports over 15 million tonnes of material every year, travelling over 60 million kms. Cemex operates a core own fleet of over 200 vehicles and an external fleet of >600 trucks from over 150 different haulage contractors every day!

With safety as our number one priority and the whole operation currently celebrating over one year employee LTI (Lost Time Injuries) free, we continue to develop our business to ensure each unit does not stand still but improves and innovates, adapting as required to keep those it works with safe.

This entry focuses on how the UK Supply Chain team has worked hard to review and improve its communication with Drivers & Contractors. The global pandemic has meant we have had to look at how we communicate, and how the benefits of these new initiatives will continue as we move forward.

The entry explains a wide range of initiatives used by CEMEX UK, please click on additional pdf at the bottom of this page to see full entry.
