COUNTRY OF ORIGIN:			

TITLE	
Isolation videos and SSOW - WINNER Topic 2	
ARTICLE	
<p>Readymix Midlands & South west operates 27 locations, primarily 24 concrete plants and 3 wharfs.</p> <p>Up to this point, we were reliant on paper systems, relying on people to regularly update following changes to processes and some staff/contractors could find it difficult to follow written procedures.</p> <p>This is particularly important as we undertake high risk isolation activities such as entry into mixers which could be complex requiring upstream and downstream isolation.</p> <p>Please view the system that was introduced to help improve the management of isolation procedures across the plant.</p>
