TITLE

360o Surround View Camera Systems – kill the blind spots

ARTICLE

DESCRIPTION

Spillard Safety Systems have developed a 360 degree all round vision camera system working with a company that originally developed the technology for the high end luxury car market. Utilising its knowledge of blind spots on mobile plant, Spillard Safety Systems has expanded the capabilities to enable the camera system to be installed onto dump trucks, excavators, dozers, compactors, telehandlers, articulated dump trucks and road haulage trucks.

The product and concept is still in the early stages of its development however the feedback from customers has been extremely positive.

Please see the additional pdf for more images.

BENEFITS

- Overcomes possibility of visual overload using upto 8 mirrors and camera
- Drivers of mobile plant have all round visibility
- Safer environment for all on site.
