- Entry forms easy for users to complete.

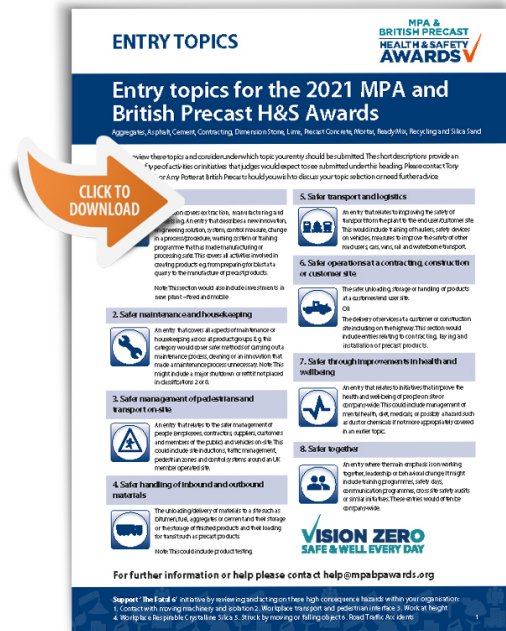

- Open to all, operators, suppliers, contractors, consultants.
- Open to all sectors within the Mineral Products Industry.
- Open to organisations of all sizes.

Why should you enter the MPA and British Precast Health and Safety Awards?

- Highly acclaimed and prestigious industry Health and Safety Award Scheme.
- Gain both UK and international recognition for your Health and Safety innovations.
- Recognise the outstanding performance of units or individuals within your organisations.
- Enhances your organisation's H & S credentials with your employees, your clients and other key stakeholders.
- By sharing and learning from each other we are all safer.

Tony Entwistle, MPA Health and Safety Manager said: “All members are urged to enter the awards. Uptake so far has been encouraging however, we are keen to ensure that as many ideas as possible are shared and that we take this opportunity to recognise the work of those going the extra mile in helping to lead our industry towards realising ‘Vision Zero’. We have worked hard to make the scheme as inclusive and simple to enter as possible and all entries will receive some recognition. It is not too late to pull together an entry, it doesn't have to be big or ground-breaking. Your small initiative on site, simply described and shared through this scheme might just be the one that helps to save a life”.

All organisations working within the supply chain of the mineral products industry are free to enter. The entry forms can be downloaded from either the [Safequarry website](#) or [Safeprecast website](#).

Please feel free to contact Tony Entwistle (tony.entwistle@mineralproducts.org) or David Yelland (david.yelland@mineralproducts.org) for more information.
